1. 3D viewing requires 3D content, 3D HDTV and a high speed HDMI™ cable (supporting at least 10.2 Gbps) connection. Other 3D accessories (including active 3D glasses) also required. 2. 1080p playback requires HDMI connector (sold separately) and compatible HDTV with 1080p display capability. 24P True Cinema requires 24p-capable HDTV. 3. Broadband internet connection and home network required. Fees may apply. 4. Certain circumstances may limit/prevent Blu-ray Disc™ media playback. DVD Media/formats are not universally compatible. 5. 1GB memory size. Storage capacity may vary. 6. BRAVIA® Sync for Theatre works with select Sony televisions and home theater products, excluding camcorders. Please check your owner's manual for compatibility. 7. Only when displaying video from x.v.Color™ enabled video sources such as select Sony camcorders. © 2010 Sony Electronics Inc. All rights reserved.
