1. 3D viewing requires 3D content, 3D HDTV and a high speed HDMI™ cable (supporting at least 10.2 Gbps) connection. Other 3D accessories (including active 3D glasses) also required. 2. Broadband Internet connection speed of at least 2.5 Mbps recommended (10 Mbps for HD content). Video quality and picture size vary and are dependent upon broadband speed and delivery by content provider. Select content provided subject to change. Premium content may require additional fees, a subscription and/or PC registration. Connectivity requires Ethernet cable (sold separately), home network with an 802.11 access point (802.11n recommended) 3. Application must be downloaded from the iTunes® application store. Requires that the Blu-ray Disc Player and the iPhone® or iPod touch® be connected to the same home network with the iPhone or iPod touch connected through an 802.11 access point (802.11n recommended). 4. DLNA requires a home network and content stored on a DLNA compliant PC or server. Requires Internet connectivity. 5. Works with other BRAVIA Sync™ or Theatre Sync™ labeled home audio/video products when connected via HDMI™ interface. 6. Measurements at 3 Ohms, 80Hz – 1 kHz with a THD of 1%. 7.HDMI cable required, sold separately. 8. 1080p playback and upscaling require HDMI™ cable (sold separately) and HDTV with equivalent display capabilities. Upscaled image quality will vary. 9. Dolby® True-HD and dts®-HD Master Audio decoding require HDMI™ cable and capable source device (both sold separately). 10. Deep Color and x.v. Color™ technology are supported only when source product, HDMI™ cable, media and HDTV all support those features. 11. iPod® support is limited to the following players with the optional dock: iPod touch®, iPod classic®, iPod nano® 1st- 3rd generation, iPod® 4th & 5th generation & iPod mini®. The TDM-IP50 dock will support iPhone® as well. Sony, BRAVIA, Digital Cinema Sound, 24p True Cinema, x.v.Color, and the Full HD 1080p and Sony make.believe logos are trademarks of Sony.
