1. Application must be downloaded from the iTunes® application store. Requires that the Blu-ray Disc Player and the iPhone® or iPod touch® be connected to the same home network with the iPhone or iPod touch connected through an 802.11 access point (802.11n recommended).
2. HDMI cable required, sold separately.
3. DLNA requires a home network and content stored on a DLNA compliant PC or server. Requires Internet connectivity.
4. SIRIUS® subscription and antenna required and sold separately.
5. Measurements at 3 Ohms, 80Hz – 1 kHz with a THD of 1%.
6. Dolby® True-HD and dts®-HD Master Audio decoding require HDMI™ cable and capable source device (both sold separately).
7. Deep Color and x.v. Color™ technology are supported only when source product, HDMI™ cable, media and HDTV all support those features.
8. 3D viewing requires 3D content, 3D HDTV and a high speed HDMI™ cable (supporting at least 10.2 Gbps) connection. Other 3D accessories (including active 3D glasses) also required.
